Table S5 - Covid-19 Denmark: School/national lockdown and reopening, and changes in testing policies

School lockdown and reopening	
2020	
March 11	Lockdown: All schools, day care centers and institutions are closed.
April 15	Reopening of schools: 0-5th grade, day care centers and institutions.
May 18	Reopening of schools: 6th-10th grade and boarding schools.
May 27	Reopening of high schools and secondary educations.
December 9	Home/online schooling of pupils for 5 th to 10 th grade, high school students, and students at secondary educations.
December 21	Home/online schooling of all pupils.
2021	
February 8	Reopening of schools for 0-4 th grade
March 1	Reopening of all schools and boarding schools on the remote Danish island, Bornholm. All boarding school pupils and pupils in 9 th and 10 th grade in Northern and Western Jutland can return to school.
March 15	All boarding school pupils can return to school, pupils in 5 th -8 th grade attend school once a week (outdoors) and online schooling the remaining time. All 9 th and 10 th grade pupils, high school pupils and graduating students in secondary education, except those who live in areas around Copenhagen, can attend school part-time (50%). On small Danish islands, all pupils can return to school.
April 6	Pupils in 5 th -8 th grade return to school part-time (50%). The same applies for non-graduating students in high schools and secondary educations.
April 21	Pupils in 5 th -8 th have the opportunity for outdoor attendance during the weeks when there is no access to indoor teaching. Graduating students in primary schools and in upper secondary and adult education can attend 80% while students in secondary educations can attend fully. The reopening is geographically differentiated and covers all parts of the Denmark with exception of the metropolitan area.
May 6	Pupils in 5 th -8 th grade can return to school 100%
May 21	All students in high schools and secondary educations can return 100%
National lockdown and reopening	
2020	
March 11	Lockdown: All civil servants in non-critical functions are sent home. Assembly ban for more than 100 people.
March 14	The government of Denmark closes its borders to all but Danish citizens, individuals with Danish work or residency permits, and those the Danish government determines have a critical purpose of travel.
March 18	Assembly for more than 10 people, closure of liberal professions, indoor sports and sports facilities, fitness centers, malls, cultural life.
April 20	Reopening of liberal professions.
May 7	Reopening of outdoor sports and sports facilities.
May 11	Reopening of all retail.
May 18	Reopening of restaurants and churches.
May 21	Reopening of museums, theaters, cinemas and zoos.
May 27	Reopening of adult education and public research activities.
June 8	Assembly ceiling is raised to 50 persons. Reopening of fitness centers and indoor swimming facilities.
July 4	Assembly ceiling is raised to 100 persons.
September 19	Assembly ceiling is lowered to 50 people, venues can still have up to 500 seated guests. Cafes, bars, and restaurants must close at 22.00. For all other workplaces - both private and public - the government encourages employees to work from home to the extent possible and appropriate.
December 17	All major shopping centers in the country close down.
December 21	All leisure activities and liberal professions, such as hairdressers, close down.
December 25	All stores except pharmacies and supermarkets close down.
2021	
March 1	Denmark partially reopens: Department stores under 5000 m2 (with the exception of department stores in malls) are reopening with stricter square meter requirements. Stores of more than 5000 m2 can be open to a very limited number of customers by appointment. Outdoor cultural institutions reopened (requirement for negative COVID-19 test). The assembly ban is raised to 25 people for outdoor sports and association activities.
March 22	The parliament has agreed to reopen society - with a few exceptions - when citizens older than 50 years have been vaccinated.
April 6	Liberal professions reopen on display of EU COVID certificate.
April 21	Shopping malls, department stores, as well as outdoor seating and organized sports for children. Outdoor dining at restaurants and cafes, museums, art galleries and libraries reopen on display of EU COVID certificate.
May 6	The assembly ceiling is raised to 25 indoors, venues can have up to 2,000 seated guests. Indoor dining at restaurants and cafes, conferences, venues, theatres and cinemas on presentation of EU COVID certificate. Organized indoor sports for adults over the age of 18 on presentation of EU COVID certificate.
May 21	All remaining sports, leisure and association activities are open upon presentation of EU COVID certificate. Indoor facilities in amusement parks, zoos, playgrounds, etc. reopened upon presentation of EU COVID certificate.

June 14	The opening hours at restaurants are extended to 24.00. EU COVID certificate requirements are abolished for libraries, etc.
July 15	Opening hours for restaurants are extended to 02.00.
August 1	Corona passport requirements are abolished for amusement parks, zoos, fairs, etc.
September 1	Assembly ceiling for larger assemblies is abolished. Nightclubs reopen against EU COVID certificate requirements. Requirements for corona passports are abolished for restaurants, water parks, etc.
September 10	Covid-19 is no longer considered a socially critical disease in Denmark
Testing policies - 2020 timeline*	
March 11	Only citizens who both (a) have symptoms AND (b) accommodate specific criteria (e.g. key workers, admitted to hospital, came into contact with an infected person, returned from overseas).
April 20	Testing of any citizen showing Covid-19 symptoms.
May 12	Open public testing access (e.g. "drive through" testing also available to citizens without symptoms).
May 29	Open public testing (e.g. "drive through" testing available to citizens without symptoms). Visitors entering Denmark are encouraged to get tested upon arrival at the border.
August 14	Open public testing (e.g. "drive through" testing is accessible to asymptomatic citizens). The Government will set up additional laboratory facilities in Western Denmark operated by private test centers to reduce the transportation and response times when testing. The target is that 80% must have access to COVID-19 testing within 24 hours and that 80% will receive a test response within 24 hours.
